

Matters about Home.

Notice to Mail Subscribers.

Mail subscribers will please remember that we invariably stop the paper at the expiration of the time paid for. About a month before his time expires we send each subscriber a bill for the ensuing year. This will give time to renew the subscription and ensure the regular continuance of the paper.

Money may be sent by mail at our risk and receipts will be returned in the paper.

Remit by Mail.

Subscribers in the country who cannot conveniently come to town, or send the money by others, to pay their subscriptions, are requested to send it by mail. Money is seldom lost in this way, where it has to go but a short distance. Remittances may be made at our risk, and receipts will be returned in the paper.

Trial Subscribers.

We will send the News to any one wishing to take it on trial for 3 months, for 25 cents. The amount may be sent in postage stamps.

Clubbing with the Magazines. By an arrangement with the publishers, we are enabled to furnish any of the following Magazines, in connection with our paper, at the rates named below:

The Lady's Book and News, 1 year, \$3.00
Blackwood and the News, 1 year, 3.00
Harper's Magazine and News, 3.00
Graham's " " " 3.00
Arthur's " " " 2.50

Persons who wish to subscribe for any of these Magazines can thus effect a material saving, as it will be seen that we furnish a copy of our paper and a three-dollar Magazine, for the regular price of the Magazine alone.

To enable all in the office to participate in the observance of Thanksgiving, we issue this week's paper a day earlier than usual.

Thanksgiving Services.

By arrangement between the pastors of the several Protestant churches, all the congregations will unite in divine service on Thanksgiving Day, at the Presbyterian Church. Sermon by Rev. Mr. BEALL of the M. E. Church.

Stoves.—Our readers who want a good cooking or heating stove will find just the article they need at J. B. Hill's new stove store on Main street, to which he has lately removed from his old stand. He is a clever and accommodating dealer, and deserves a liberal patronage. Give him a call.

Undertaking.—We call attention to the card of Mr. Geo. M. Zink, in this week's paper. He has procured a new and splendid horse, made at the Carriage Manufacturing of our townsmen, L. J. DAVIES, and which for beauty of finish and workmanship will compare well with any specimens of city manufacture.

Old Winter. Has commenced his dreary reign in good earnest, long before the farmers or anybody else in this latitude were prepared for his coming. Last Wednesday night the weather commenced growing colder, and on Thursday the first snow-storm of the season whitened the ground. From Thursday night to Sunday morning the wind blew almost incessantly in force and bitter blasts, driving the snow in blinding clouds, and making most people glad to keep within doors, toasting themselves by warm fires, and easily discussing the extraordinary weather. It is indeed extraordinary, for during Friday and Monday nights the mercury fell to 10 degrees above zero in sheltered situations. So sudden and severe was the change that fowls were frozen on their roosts, and unsheltered cattle must have suffered greatly. The worst of it is that very few of the farmers have their corn gathered, and much of it must be injured by the cold. The "oldest inhabitants" remember no such weather so early in November. The ground is now covered with snow, frozen on the surface, and the pavements in our streets are so coated with ice as to render walking difficult and dangerous. In respect of weather, our Thanksgiving would do no discredit to New England itself.

Fire.

On Saturday afternoon last, between 4 and 5 o'clock, a fire broke out in the Livery Stable of Messrs. C. McMullen and A. Glenn, (formerly owned by Jas. S. Murphy), on Beech street, nearly opposite the Woodrow House. A strong wind was blowing at the time and the flames spread with great rapidity, but fortunately the fire commenced in a part of the buildings remote from the horses, and they were all saved without difficulty, as were the carriages, &c. The fire company was promptly on the ground, and worked admirably, though some little delay occurred in consequence of the engine having been taken apart to thaw out the valves. The engine proved itself a good and efficient machine, throwing a strong and steady stream, which soon showed its power in extinguishing the flames, and preventing their further spread.

Fire.

In spite of the combustible nature of the buildings and their contents, the high wind, and the delay in getting the engine to work, a considerable portion of the timbers were saved, and can be used again. The buildings were owned by Dr. J. M. Johnston and Messrs. McMullen & Glenn. The entire loss, we suppose, will not exceed \$300.—Messrs. McMullen & Glenn's loss in hay, grain, &c., was trifling, as they had but a small stock on hand.

The fire is supposed to have caught accidentally, from sparks blown from the chimney to the hay-loft.

Hillsboro Lyceum.

The Lecture on Friday evening last was delivered by JOHN A. TAYLOR, Esq. There was a large audience present, despite the inclemency of the weather, proving the interest felt by our citizens in sustaining these rational and highly instructive entertainments.

Rev. J. M. D. MATHIAS will lecture on Friday evening next. Subject: "India."

For Winter Clothing.

We would recommend buyers to call at C. W. Rhodes & Co.'s, and examine their fine stock. They have a large assortment of everything in the line of Men's and Boy's Clothing, suitable for the season, and we are assured that they are selling the greatest bargains that have been offered, which they are enabled to do by having purchased their stock very low during the recent forced sales in Cincinnati. They have some superb Overcoats, just suited for the present cold weather, and a great variety of other seasonable goods. Give them a call, at the old stand of S. McKee, lately occupied by J. P. Stewart.

The Fire Company.—An Appeal for.

The wisdom of the recent purchase of a Fire Engine and apparatus, by our Town Council, was fully proved on the occasion of the recent fire. Although greatly hindered in their efforts for want of a sufficient quantity of hose, the firemen did excellent service, and no doubt prevented the spread of the flames and the destruction of a large amount of property. Had the wind been in the opposite direction, to wards the rear of the buildings on High street, the conflagration would probably have swept the whole square, if we had had no engine to stop its progress. This being the first fire which has occurred since the purchase of the engine, we looked for some confusion in the operations of the firemen, but there was no more than was to be reasonably expected under the circumstances, as most of the members were without experience in actual service. They showed, however, that they were not wanting in zeal and spirit, and that they only need the discipline which practice will give, to render them as efficient as any other firemen.

It will be seen by a notice in our advertising columns that the Fire Company make an urgent appeal to their fellow-citizens to aid them in procuring additional hose, which is greatly needed, and for the purchase of which the Town Council have no funds at their command, having already appropriated all that they can legally expend, for the engine, hose carriage, hose, and the erection of the engine-house. The company have only a little over 200 feet of hose, and should a fire break out at a greater distance from any of the public buildings, it is evident that the engine would be of comparatively little service. They have already raised about \$100 by subscriptions from the citizens, but wish to raise \$100 more, if possible, so as to procure some 300 feet of additional hose. They propose to give a Grand Supper and Musical Entertainment, on Thanksgiving Night, to-morrow (Thursday) Evening, at the Court House. The occasion is a most appropriate one for the worthy object in view, and we trust all will avail themselves of the opportunity to manifest their gratitude to the brave firemen, who voluntarily and without reward are ready to risk their lives to protect the lives and property of their fellow-citizens. Let the Court House be crowded.

Foreign News.

The steamer Atlantic arrived at New York on Monday, with Liverpool dates to the 11th inst. She brings gloomy intelligence in regard to the state of money and business matters in Europe. The great commercial house of Baring, Brothers & Co., of London and Liverpool, had failed, with liabilities amounting to ten millions of dollars. The Western Bank of Scotland had also failed, with deposits amounting to thirty millions of dollars. Numerous other failures are reported. The Bank of England advanced the rate of interest to 10 per cent., and the Bank of France to 8 per cent. A complete panic prevailed in commercial circles. Cotton, Breadstuffs and Provisions had declined, Ohio Flour closing at 20s in the Liverpool market.

The Rescue Case.—EXPENSES.

The Grand Jury at the recent session of the U. S. District Court in Cincinnati, found indictments against John E. Layton, and Wm. H. Compton, Sheriff and Deputy Sheriff of Clark County, for obstructing the U. S. Marshal, Charles Taylor, of Champaign county, for harboring and concealing a fugitive slave; Leabard Corwin, Joseph C. Brand, and John Clark, Jr. of Urbana; Wm. H. Compton, John S. Hauke, of Springfield; Daniel Lewis, Sheriff of Green county, and Elijah Coffin, for obstructing U. S. officers in Clinton county. The U. S. Marshal's bill of extraordinary expenses in the rescue case is \$2,320. The slave hunters mean to make a fat thing out of their official bloodhound business.—[Cleveland Herald.]

THE HARB.—A correspondent of the O. S. Journal says:

"An attempt will doubtless be made to crush all banking institutions, and to inaugurate the hard money age.—The initiation of this, it is said, will be taken by the President in his Message to Congress. The Washington Union has been ground in favor of Congress imposing a duty or tax upon bank bills of a less denomination than ten or twenty dollars, and the Cincinnati Enquirer of yesterday backs up the recommendation in a long leader. There is no doubt, therefore, that something of this sort will be recommended in his Annual Message."

Wm. MORAN, alias JONES, the desperate burglar, who shot and instantly killed officer Beeson in Columbus some three years ago, while he was aiding several officers from Newark in attempting to arrest him, has finally been found guilty of murder in the second degree. The punishment for this offense is imprisonment in the Penitentiary for life. He was arrested in Wisconsin, where he was a member of a band of burglars and counterfeiters, and confessed the murder of Beeson to a policeman who was placed in the same cell with him on a sham arrest for passing counterfeit money, and succeeded in gaining his confidence.

The Hog Market.

The Cincinnati Gazette of Tuesday says: It is somewhat difficult to get at the true state of the market for hogs. Sales were made from \$3 1/2 to \$5 1/2, but the feeling was depressed, closing at \$4 1/2. Last night receipts, however, being little more than sufficient to meet maturing contracts, prices were sustained. The hog market throughout the entire West continues depressed. At Louisville only \$2 1/2 to \$3 1/2 was paid up to Saturday night. The nominal price was \$5 net.

SPECIAL NOTICES.

HOLLOWAY'S PILLS are indispensable to the security of health and life in new settlements. Fever and ague, bilious complaints, and bowel complaints, are the worst enemies the western settler has, and he can only guard against them by the use of these pills. They are sold everywhere, and are certainly and permanently put them to flight with this medicinal and healthy, and pleasant, and restorative. There are multitudes of cases of illness and death, which could be avoided by the use of these pills. In the western settlements, where the soil is so fertile, and the climate so warm, and the people so numerous, and the diseases so prevalent, it is of the utmost importance that the people should be provided with a reliable and effective remedy. Holloway's Pills are the only remedy of the kind that is sold everywhere, and is certainly and permanently put them to flight with this medicinal and healthy, and pleasant, and restorative.
